

Brief write-up about GD Hospital & Diabetes Institute

Promoted by the Pataka Group, GD Hospital & Diabetes Institute (GHDDI) is an initiative of Mr. Mustak Hossain, Chairman and Managing Director, to perpetuate the dreams of his philanthropic parents. Located at the heart of Kolkata, the 150 bed multispecialty hospital focuses primarily on diabetes care and its related complications.

GD Hospital & Diabetes Institute is spearheaded by its Chairman, Prof. (Dr.) Sukumar Mukherjee, a doyen of the medical profession. GD Hospital's team of eminent Consultants, dedicated Resident Medical Officers (RMOs) and trained paramedical and support staff, serve patients from all walks of life with state-of-the art medical solutions at affordable cost.

The 3 state-of-the-art Operation Theatres of the Hospital cater to all kinds of major and minor surgeries in Orthopaedics, Urology, Gastroenterology, Obstetrics-Gynaecology, Oncology, Neurology, Cosmetic & Reconstructive Surgery, ENT and many others. The ICU and Dialysis Units of the hospital are among the best in Kolkata, both in terms of infrastructure and service quality. A dual bed Speciality Burn Unit with most sophisticated amenities and specially trained Nursing Care Sisters is one of its kind in Kolkata. We also have 24-hour Emergency, Diagnostics, Pharmacy and Ambulance to help patients in any crisis.

In keeping with our focus on holistic diabetic healthcare, we have set up an advanced Ophthalmology Department with a dedicated OT comparable to any super-specialty eye hospital. The Dilkhush Memorial Mother and Childcare wing also offers specialized care for both diabetic and non-diabetic mothers, apart from attending complicated obstetric and gynaecological cases. GD Hospital & Diabetes Institute also serves non-diabetic patients through its multi-disciplinary medical facilities offering both consultation and residential facilities.

Outpatients

The Out-patients Department (OPD) features Consultants in various disciplines viz. General Medicine; Cardiology; General & Lap Surgery; Diabetes & Endocrinology; Gynecology; Obstetrics; Neonatology & Paediatrics; ENT; Gastroenterology; Dermatology; Eye Care; Foot Care; Dental Care; Neurology; Psychiatry; Orthopaedics; Dentistry; Nephrology; Urology; Chest Medicine; Oncology; Rheumatology; Haematology; Pain Clinic; Plastic/Cosmetic & Reconstructive Surgery; Paediatric Surgery; Physiotherapy.

Diagnostics

The Hospital's diagnostic services provide 24-hour services in Radiology & Pathology. Facilities span all advanced medical tests including Colour Doppler, Echo, TMT, Endoscopy, ECG, EEG, EMG, NCV and Holter Monitoring. Imaging equipment include 124-slice spiral CT scanner, MRI, CT ANGIO (Brain, Peripheral, Both Limb up/low & others), VEP (Neuro), Uroflometry, 4DUSG, Fully Computerized Radiography (CR) system and an array of X-Ray machines. The NABL Accredited Pathology Laboratory is supported by state-of-the-art equipment from world leaders.

In-patients

For patients who need extended care the hospital offers a choice of accommodation with full monitoring and nursing support. Day Care, General Bed, Special Suite and Deluxe Rooms are available at economical cost. A Paediatric Unit is there to care for children in a cheerful atmosphere. For anyone with a medical problem we provide a ready solution.

Academic Courses:

Para Medical Courses: DMLT, DRD(T) and DOPT under State Medical Faculty of West Bengal are being conducted for the past few years where students are provided with hands on facility to practice in the Laboratory, Radiology and Imaging and Ophthalmology Departments respectively. Theory classes are taken by qualified Doctors and Technicians attached both in full time and part time capacities with the Hospital.

Other courses conducted by the hospital for Doctors are RSSDI (recognized course on Diabetology) and PHFI Courses on Diabetology and Endocrinology.

At GD Hospital & Diabetes Institute we continue our endeavor in combining insight, expertise and dedication to create a new benchmark of excellence for every patient who walks through our doors. GD Hospital & Diabetes Institute extends its '**CARE FOR LIFE**' not only to the urban populace of Kolkata but also to the deprived rural population in the villages of Murshidabad, Malda and the surrounding areas.
