

1. Suraksha Diagnostic, is a pioneer of Healthcare industry in Kolkata since 1992 and today we have flourished in all across West Bengal. In less than a quarter century, we have emerged as the frontline chain of diagnostic centers in India having 40 Collection centres and 6 state-of-art- laboratories, leading the way in introducing the latest technology for the benefit of doctors and patients. We employ the latest technology at all centers for both Pathology and Non-Pathology services like Radiology, cardiology, Gastroenterology, Neurology etc. Apart from diagnostic services, Suraksha has a number of polyclinics with senior consultants from disciplines such as Cardiology, Gastroenterology and Neurology. It also runs Super Specialty Clinics for diabetes, hypertension, back pain, etc. Suraksha believes that quality is an integral part of patient service and therefore all our branches are owned and operated by the company directly to maintain strict quality protocols. And moreover, most of the branches are accredited either by National or International accreditation bodies like NABL, CAP, NABH & ISO15189-2007/2012 standards. To get qualifies employees as per the standards, we have started DMLT and DRD courses as well.
